

Transition Services Overview

- Individual Placement
- •Group Employment
- •Paid Internship Program
- Tailored Day Services
- •Day Programs
- •Self-Determination Program
- •Questions

Individual Placement

• This service is at a 1:1 ratio.

- Department of Rehabilitation (DOR) and SDRC collaborate to support individuals in Supported Employment.
- DOR provides initial support and funding.
- Individuals transfer to SDRC funding if they can reach stabilization (around 20% job coaching intervention level).
- Individuals should be able to independently transport or have other reliable means of transportation.

Group Employment

- Job coach needs to be present during shift.
- This is a good option for individuals that want to work part time or require work experience.
- The hours vary by work site but average around 20 hours per week.
- Individuals must be paid minimum wage or higher.
- SDRC is no longer vendoring Work Activity Programs (subminimum wage work).

Paid Internship Program

- The purpose of the paid internship program is to increase the vocational skills and abilities of consumers who choose, through the Individual Program Plan (IPP) process, to participate in a paid internship.
- The goals of the program include the acquisition of experience and skills for future paid employment, or for the internship itself to lead to full or part-time employment in the same job. **W&I Code Section 4870**
- PIP's are predicated on the person-centered planning process.
- Placements shall be made into competitive integrated work environments.
- SDRC is responsible for paying the wages, payroll costs and job coaching supports if necessary.
- PIP's are a time-limited service.

Tailored Day Services

• This service is at a 1:1 ratio.

- Provides opportunities for participants to choose and customize day services to meet their individualized needs.
- Common goals under TDS include community integration, postsecondary education, volunteering, employment supports and PIP's.
- Flexibility to have multiple services through IPP planning team decision.

Day Programs

- Community-based programs are appropriate for individuals that have the stamina and can manage their own self-care needs.
- Site-based day programs are licensed by Community Care Licensing. These programs can provide assistance with medications and self-care needs.
- •Behavior management programs have additional requirements that must be in place (example: behavior intervention plans and staff behavior training).
- Individuals in day programs can discuss alternative options if they want a less restrictive environment (example: group employment, individual placement or TDS).
- SDRC also has several look-alike programs. Most look-alike programs are timelimited.

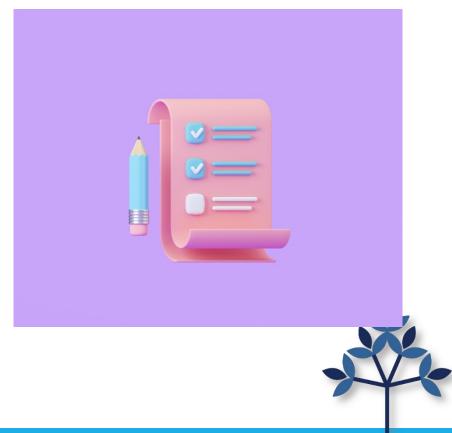

Self-Determination Program

 Self-Determination is a new way to imagine, plan, and live your life. It offers more authority over what services you buy, what those services look like and how much you pay for them.

• Whether you decide to use regional center providers or find your own, Self-Determination means you are in the driver's seat.
